

Kahle Automation Announces the Launch of Its New Website

In honor of celebrating our 100th anniversary as a worldwide leader and supplier of custom high-speed automation and processing equipment for the Medical Device, Pharmaceutical and Healthcare Industries, Kahle Automation is proud to announce the launch of its new website.

Kahle has been designing turnkey solutions for custom equipment, specializing in system integration, material and package handling, equipment validation, parts feeding, along with documentation to meet our customers everyday requirements.

“Kahle’s solutions don’t come in a box, why would our ideas”

For more information on how you can partner with Kahle for your next project, please visit us at www.kahleautomation.com
